# Report of Superintendent of Schools

---

TO THE SCHOOL BOARD AND CITIZENS OF THE  
TOWN OF LANGDON:

We hereby submit for your consideration our first annual report, being the thirteenth of its series.

Because of the change in superintendents during the school financial year, the work has been, for the most part, a continuation of the policy already in operation. Our personal observation has covered about one half of the time included in this report. During that time we have endeavored to keep the work under way and make a study of the needs of the schools and of the individual pupils as far as time has permitted. During this time we have found opportunity for some development, we believe, and by meeting the new needs, as they show themselves, is the only way to make the progress demanded at the present time. It is a time for testing efficiency and out of these tests grow new problems. The state is making new demands upon our schools. The public is demanding a better preparation for life. With these new demands resting upon us, we must do our work better and try to meet the new conditions more efficiently.

The following statistics may be of interest to many and, we believe, are worthy of our consideration.

### Winter Term 1914

School	Teacher	Total Enrollment	Average Attendance	Per cent. of Attendance
H. S. & Prim.	Nina Tilden	9-10	6.61-7	94-87
Grammar	Roseland Tilden	17	15.27	89

### Spring Term

H. S. & Prim.	Nina Tilden	9-10	6.58-8.54	94-98
Langdon Hill	Grace E. Graves	14	13.20	94

### Fall Term

Grammar	Irene M. Boyle	13	11.9	92
Primary	Emma MacNutt	19	18.00	95
Hill	Ruth E. Freel	14	not on hand	

There is much to commend in the results shown by the above table. The town maintained a successful unapproved high school with a reasonable attendance for one year. The attendance shows an interest in the schools and a worthy support of the teachers. In spite of the fact that we are not continuing the high school this year, there are nearly as many pupils in the village school. The dropping of the high school for the present has made it possible to organize the village school into a uniform two teacher graded school. By doing this we have a very desirable classification of the pupils. Each grade is distinct and doing the work as it is prescribed by the program of studies.

We have met with the cooperation of the school board and teachers in doing our work. The lines of development are at present the fundamentals. Some attention has been given to the equipment and method in the teaching of reading. The teachers have been generally successful in the muscular movement teaching of hand-writing. More attention is being given to rapidity and accuracy in the number work. Only the essentials are taught, and the four fundamental operations have been tested by the Curtice Tests for efficiency. As the schools are at present, we find little in them to condemn and much to commend.

There was a need of more reading material and of enlarging the sets of books in the lower grades. The teachers

were in need of few desk books to make the work definite. These demands have been fairly well met by the expenditure of \$30.39 during the present school year. In this is included \$3.25 for the Current Events for the reading classes in the upper grades. The text books seem to be in good condition and sufficient for the present. The pupils need, however, a large number of books for silent reading, either in books furnished through libraries or by supplementary books in the schools. These should be suited to the development of the pupil, that they may both learn to read by reading something they can and want to read, and also acquire a broader apperceptive mass of material to help them in other subjects in their school life.

We hope for your support in making the schools of Langdon the best you can afford.

E. J. BEST, Superintendent

# VITAL STATISTICS

In compliance with an act of the Legislature passed June Session, 1887, requiring clerks of towns and cities to furnish a transcript of the record of births, marriages and deaths to the municipal officers for publication in the Annual Report, we submit the following:

## BIRTHS

REGISTERED IN THE TOWN OF LANGDON, N. H., FOR THE YEAR ENDING DECEMBER 31, 1914
